## Instructions on how to login to the WACSD PC laptop

When the computer is turned on, this is the first screen.

The learner will press  
CTRL + ALT + DELETE  
at the same time to get the login screen.

If you see a screen similar to this one, just use password Winfree123.  
You should be logged in and get the Windows desktop, which has an icon for Clever

**DO NOT** use your regular network credentials as you do at school.

If you **DO NOT** see a screen with the username "Student", then press "Other User" on the bottom left. and then use the following information:

Username: .\Student (dot\student)  
Password: Winfree123

Please press the button on the right with the arrow pointing right. Now you should be logged in and get the Windows desktop, which has an icon for Clever.

## Activating your WiFi

Once you have successfully logged in to your WACSD PC laptop, you will need to activate your WiFi in order to be able to work on your courses.

<p>In the bottom right-hand corner you will see the wireless icon.</p>	
<p>Next you will see the list of wi-fi networks. Click on your WiFi.</p>	
<p>Your WiFi choice will open up and ask you to connect. Check the "Connect automatically" box so you don't have to do this again in the future. Then click "Connect".</p>

*Success tomorrow starts today...*

Next, it will ask for a security key. That is the WiFi password.

If you do not have a WiFi password, this screen may not show.

Enter your WiFi password if you have one, and click "Next".

The your home WiFi will be identified and Connect, and Secure

The WiFi icon will now look like this:
